EDUCATION

Emory University

Atlanta, GA

Bachelor of Science Candidate / Pre-BBA Track

May 2030

Intended Major: Data Science & Business Administration

Robert W. Woodruff Scholar - Emory's premier full-merit scholarship (full tuition + stipends); 1 of 2 international students selected.

Nazarbayev Intellectual School of Science and Mathematics

Almaty, Kazakhstan

GPA: 5.0 / 5.0

May 2026

WORK EXPERIENCE

Washington University in St. Louis

St. Louis, MO

Research Assistant, Prof. Yevgeniy Vorobeychik

May 2025 - Dec. 2025

- First author on "Inverting Obfuscated Text with Fine-Tuned Language Models" with Y. Vorobeychik; manuscript in preparation on adaptive LLM attacks against LDP sanitization, prompt obfuscation, and emoji encoding.
- Fine-tuned T5/BART decoders and built attacker-defender loops that reconstructed a majority of tokens from SanText/SanText+ at low epsilon and fully recovered an obfuscated system prompt (leakage = 1.00).

MIT Critical Data Lab

Cambridge, MA

Researcher (PI: Dr. Leo A. Celi)

Jul. 2025 - Present

- Co-authored a submitted scientometric audit of the 2025 AHA/ACC Hypertension Guidelines; reconstructed 1,224 cited-study records and analyzed geographic and demographic representation.
- Built a PDF-to-CSV extraction pipeline across 1,000+ clinical studies with pre-specified validity checks, retaining 631 records for clean analysis.

hillclimb (YC-backed startup)

San Francisco, CA

Data Scientist / Quant

Apr. 2026 - May 2026

- Solved IMO-level mathematics problems and wrote rigorous, step-verified solutions for an early large-scale mathematical reasoning dataset for AI training.

CheckDoc.kz (health-tech)

Almaty, Kazakhstan

Backend Developer

Apr. 2025 - May 2025

- Built backend microservices that improved POST-endpoint modularity and automated deployment pipelines with CI/CD tooling.

Amurex.ai (open-source AI meeting notetaker)

San Francisco, CA

Software Engineering Intern

Oct. 2024 - Dec. 2024

- Built SQL/ETL pipelines and backend features in async Python using REST APIs.

LEADERSHIP & COMMUNITY INVOLVEMENT

OLScience Circles / STEM Olympiads / Kazakh National Math Olympiad

Math Olympiad Judge & Participant

2022 - Present

- Won 2 silver medals at the Kazakh National Math Olympiad.
- Judged 10 national olympiads, coached 8 students to national and international wins, engaged 100+ students across 5 countries, and launched a 500-person event while training 30 jurors.

ADDITIONAL INFORMATION

Honors & Awards: Robert W. Woodruff Scholar; 2x Silver Medalist, Kazakh National Math Olympiad

Technical Skills: Python (including async), SQL, ETL, Git, REST APIs, TensorFlow/Keras, Transformers (T5/BART), classical ML/NLP, ArcGIS

Languages: Russian (native), German (native), English (fluent)
